

iWand Plus Needleless Acupuncture

Most Suitable for:

1. Stress relief and activation of parasympathetic nervous system
2. Improving peristalsis and digestion
3. Pain relief for ached muscles/joints/tooth
4. Wound healing/recovery
5. Improving absorption of topical application
6. Relieving cough and flu discomfort

Key Features:

Incorporates *Euphoria Technology*[™] to generate a programmed and stable *PVA Field (Proton Vibration Alignment Field)* to deliver unprecedented healing power, aid in improving body microcirculation, promotes metabolism and enhances wellness without skin contact.

Using ordinary red light (neither infrared nor laser) as a medium, the *PVA Field* is carried into the human body to enhance the microcirculation of dermis and subdermal tissue cells.

How does iWand Plus work?

When the protons in body fluids and tissue cells vibrate in random motions, body microcirculation is slow and weak. In Traditional Chinese Medicine, it is known that a blocked meridian flow – in other words impeded microcirculation – will manifest into pain or illnesses.

With the application of *Euphoria Technology*[™] in the *iWand*, the *PVA Field* can penetrate the dermis and subdermal tissues to align the vibration of protons in body fluids and tissue cells so that microcirculation becomes faster and stronger. Once a smooth meridian flow is re-established, the body's own healing potential is maximized.

1. **Relieve Pain:**

Can remedy all kinds of pain and common illnesses, including: headaches, neck and shoulder pain, back pain, knee pain, arthritis, muscle aches, menstrual pain, gout, etc.

2. **Improve microcirculation:**

Point the light to the corresponding acupoints to enhance the body microcirculation. It can help to treat sub-health conditions, immunity disorders, common women's and men's health problems; improve sex, enhance beauty and prevent illness.

3. **Expedites the cutaneous absorption of topical applications**

Use the *iWand* over the area on which topical applications (e.g. skincare products and dermatological ointments) are applied for about 1 minute. The treatments will be quickly and deeply absorbed into the skin.

4. **Rapid recovery of infection or wounds**

Suitable to use on all body parts including hair, wounds, eyes and skin.

iWand Plus Pet Care:

Pets are equally same as human beings, need to experience birth and old age, sickness and death. iWand Plus is especially important for older and young pets. Body functional degradation, injuries, unsmooth of meridians and blood flow of older pets, have brought them a series of health problems, affecting the quality of their old age. While for the sickening young pets, their weak body might not be able to bear heavy doses of the drugs or surgical treatment. For mild issue such as cold, constipation and indigestion, iWand Plus can works effectively to adjust the body energy, smoothen meridians, promote blood microcirculation, accelerate the new metabolism, to speed up the pet's self-healing process.

Example of applications:

Skin Disease

Dog feet was having long-term bleeding due to skin disease. With an ineffective of drugs treatment, pet owner point the iWand Plus on the wound for 2 days, about a few hours a day. The wound began to dry and heal after a week.
