

Sparkle Rubies

Special Features

- Natural blood thinner, anti inflammation and heat reducer

Most Suitable for

- Bacteria infections and inflammation
- Sticky blood
- Gallstone
- Urinary tract infection
- Flu/cold
- Sore throat
- Cough
- High cholesterol
- Heaty physics
- Hot flush

Main Benefits

- Reduce inflammation
- Improve elasticity of blood vessels
- Reduce blood stickiness
- Improve bile and collagen
- Prevent bacteria infection
- Improve prostate and urinary function
- Reduce gall and bile stone
- Reduce kidney/bladder stone

Ingredients/Process

- Cranberry extracts, deodorized garlic extracts, Acerola Cherry extracts, Zinc gluconate

Sparkle Rubies

Ingredients:

Cranberry extracts, Deodorized garlic extracts, Acerola cherry extracts (natural Vitamin C), Zinc Gluconate

Benefits:

- **Inhibit the formation of blood clots in the body, reduce inflammation and help maintain elasticity of blood vessels, prevent blockage of cardiovascular artery.**

- Allicin from the garlic extract can inhibit platelet aggregation, dilate blood vessels, regulate blood pressure and prevent accumulation of cholesterol in the cardiovascular arteries. Antioxidant in vitamin C can slow down the progress of atherosclerosis, prevent LDL cholesterol damage. The formation of plaque of damaged LDL in the artery lining can cause heart attack or stroke.

- **Promote liver bile formation and collagen synthesis**

Vitamin C helps detoxify the liver by promoting bile production and helps to dissolve gallstones. Together with vitamin E, it neutralizes free radicals, improves immunity, promotes collagen synthesis and helps to repair tissue.

- **Prevent bacterial and virus infection /Speed up recovery of infection** (Such as herpes, sore throat, cough, chronic sinusitis, sputum)

The concentration of Vitamin C in the immune cells is several times higher than in serum, it can inhibit viral replication. The collagen formed can strengthen tissue connections, forming a protective layer against bacteria or virus invasion; Garlic can inhibit the growth of microorganisms, kill bacteria, and fungi; Zinc Gluconate activates our immune system.

- **Prevention and recovery of urinary tract infections, urethritis and bladder inflammation**

Proanthocyanidin content in cranberry acidify the urine to prevent bacteria from clinging to the tissue. It is also a natural diuretic that helps kidneys to flush residual material. Garlic can help to kill E. coli, candida, yeast, mold that cause athlete's foot, vaginal infection or urinary tract infection. It can act as natural antibiotics without the common side effects.

- **Improve conditions of odor urination, difficulty in urinating or frequent urination caused by prostate enlargement**

It provides the zinc element that lacking of it causes prostate enlargement; Garlic is a natural anti-inflammatory substance, together with vitamin C, it strengthens immunity and tissue repair.

- **Effective against free radicals : S.O.D. test shown over 5,060,000 units/100gm**

SOD (Superoxide Dismutase) is an important antioxidant enzyme. It can protect cells , anti-aging, normalize the immune system and protect against chronic diseases.

- **1 Sparkle Rubies capsule = 1000c.c. cranberry juice.** Easy to carry around, an essential travelling needs.

- Pass the tests on detecting western medicine, plasticizer, pesticide residues, heavy metals, microorganisms and SOD activity.
